

# Fall Protection TRAINER Program

## Program Description

Our Fall Protection Trainer Program is designed to help Trainer candidates gain a solid technical foundation and a practical grasp of adult learner engagement.

**Program Duration** 3 Days

**Certification Duration** 3 Years

**Cost** \$2,000 (includes 20 x Student Licenses)  
Additional student licences are \$40 each  
Training Audit \$500 + Travel Expenses

**Pre-Requisites** 1-day Fall Protection User Course + Pre-Course Theory Exam

## Topics Covered

Theory	Practical
Principles of Adult Training CSA/ANSI Standards Fall Protection User Course Review	Practice Training of Course Material Harness fitting workshop Fall distance calculations Fall protection system review

## Certification Requirements

The Trainer must:

- Pass the Practical components of the Trainer Program
- Pass the Final Theory Exam
- Teach a minimum of 3 classes per year with at least 4 people in each class.

## Re-Certification Process

The Trainer will undergo a Training Audit within 6 months of expiry. Passing the Training Audit will allow their certification to extend another three years.

The Training Audit fee is \$500 + travel costs. The Trainer has the option to attend another Trainer course at the regular course cost, yet minus the expense of student licenses.

## Notes

- The Trainer Candidate would become licensed to teach the Blueline Safety Ltd. 1-day Fall Protection User course.
- All materials would be provided, and the Trainer (or employer) would order student manuals / licenses. The manual / licenses are \$40 each.
- The 1-Day Fall Protection User Course has the flexibility to be somewhat customized for your organizations specific needs. This helps ensure that your training is relevant.
